The indications for twenty-four hours, commencing at 3 p.m. to-day, for Missouri are: Light to fresh southerly winds; slightly warmer; occasional local rains.

THINGS are warming up at Chicago.

CHICAGO patriots are warmed by the idea that the Alger boom is "worth \$100,000 in cash to Chicago."

THE result of the Chicago Convention will probably be announced in advance in the SUNDAY POST-DISPATCH.

MURAT HALSTEAD detects a resemblance between the Gresham boom and the Bristow boom. Everybody remembers Bristow.

THE Sherman men claim 340 votes for SHERMAN on the first ballot. This indicates that SHERMAN is the second choice of 340 Blaine men.

THE letter that never came is the letter from BLAINE to JONES stating that the two preceding letters were authoritative, conclusive and final.

THE thoughtful statesman at Chicago who will put his ear to the ground can distinctly hear the deep, profound, expressive silence of the Blaine boom.

A GLOOM is thrown over the Chicago Convention by the announcement that the Allison boom will be boomed by Leatherlungs DOLLIVER, the Boy-Blowator of the Hawkeye State. Mr. DOLLIVER has a style of eloquence which can fill a hall and empty it quicker than any other known process.

The horticulturist and fruit-growing organizations of California have been among the clamorers for the protection of American labor by tariff duties. It is notorious that the labor employed by them was that furnished by the Chinese importers of coolies. Now, since that importation is stopped by treaties and legislation, instituted by a Democratic Administration, they are preparing to have Japanese laborers sent over to them by the ship-load. Yet they are still mouthing phrases about the protection of American labor.

THE Newark (O.) Advocate rebukes the Chicago and Cincinnati papers for their misrepresentations of the entertainment of the National Democratic Convention and says: "It was the unanimous opinion of those present at the convention, who had attended national conventions for years, that the hospitality of the people of St. Louis and the special pains taken to entertain their guests exceeded all former efforts in other cities." This unanimous testimony of the persons most competent to compare the performance of St. Louis with that of other cities is conclusive and she is content to rest her case on their verdict.

AMONG THE BROKERS.

A Dull Market—Stocks Sold and Prices Ob-tained To-Day.

To-day's mining market was decidedly heavy, and prices generally were lower, while no stocks were in heavy demand.

Frisco touched the lowest point it has reached since the strike, 2,600 shares selling at \$1, and the stock being freely offered at prices of the close. A report was received from Supt. Smith to-day, in which he stated that the 100-foot level had been driven eight feet east, making the total length 204 feet. The south crosscut had advanced 9 feet, the distance between the veins being now 15 feet. Some 1,000 feet of the tunnel had been driven in the main drift. The stops still pitches toward stop No. 1, and it is expected that a drift will be driven to the vein, when a "horse" is passed. In the 400-foot level work had advanced 15 feet east, making a total length of 204 feet. The tunnel had advanced 12 feet, making a total of 157 feet, and south 2 feet, a total of 167 feet. A carload of ore was yesterday shipped to Denver, and shipments will continue.

West Granite opened at 45¢, at which 800 shares were disposed of, to fall to 41¢, 300 shares bringing that figure, and closed at 41¢, at which 1,200 shares sold.

In the absence of reports from the mine Black Oak was weak, and little demand, 100 shares on the street at 39¢, and 800 shares on change at 38¢, 114 being sold for small amounts at the close.

I. L. Smith, receiver at 5, 14th Street, took 2,500 shares at 41¢, and 41¢ was bid at the close of trading with offers of stock at 41¢.

Cleveland was weaker than it has been for some time, 1,500 shares selling at 9, 500 at 8¢, and 6 being bid at the close with offers at 8¢.
